Issued as of 8:45 a.m.

No Travel Advisory lifted in south west, south central N.D.

The North Dakota Department of Transportation (NDDOT) has lifted the **No Travel Advisory** for the south west and south central regions of the state. Motorists need to use caution and reduce speeds because the roadway has long stretches of compacted snow and scattered ice. A **Travel Alert** remains in place for this portion of the state as well as the eastern region. A **No Travel Advisory** remains in effect for north west and north central North Dakota.

Motorists are cautioned to be alert to changing conditions.

Travelers are encouraged to monitor road conditions, reduce traffic speeds as weather conditions occur and use caution while traveling. For road information, call 511 from any type of phone or go to the website: www.511.nd.gov for road and weather conditions.

Please be advised that information on 511 is updated daily from 5 a.m. until 9 p.m. CST. The 511 road report is based upon the information available to the NDDOT at the time of preparation and is provided solely as a public service. Conditions may vary from those reported.

If motorists become stranded they should stay with their vehicle and call 911 for emergency assistance.
